

HSE and Fire trainings

HSE training First aid was held from the 13th to 20th of August 2018 at the Head Office of Bouygues Turkmen. 52 employees divided into 6 sessions, mainly from production field were trained during 2 days. The objective of this training is to learn first aid actions, how to react, intervene and rescue people in emergencies.

Fire training was held on 21st of August in training room at the HTC project. 72 employees from all projects were divided into 3 session, 2 hours each. Training was provided for HSE officers and site operations.

Both trainings were run in French and Russian languages and provided by Bernard JANNIN – expert invited from France together with ASPEBE association.

Welcome Day

Diversity and inclusion

As part of our Diversity strategy, the Recruitment Team of Bouygues Turkmen took part in the first-ever Career Fair for people with disabilities (PWDs) in Turkmenistan hosted by the United Nations Development Program (UNDP) on August 30th, 2018. The goal of this event was to promote and support meaningful and equitable employment of PWDs.

As a result of the event the CVs collected would be considered for further recruitment at Bouygues Turkmen and will be proposed for the consideration of vacant positions.

One more initiative organized by UNDP took place on 17th of August 2018, where members of our recruitment team provided support for PWDs on preparing resume and developing interview skills.

Bouygues Turkmen continues to create equal opportunities!
